

# WHY PAY MORE?

The cost of medical care varies greatly, particularly for advanced diagnostic technologies. Aetna's new cost estimator helps you identify the cost of care, before making an appointment.

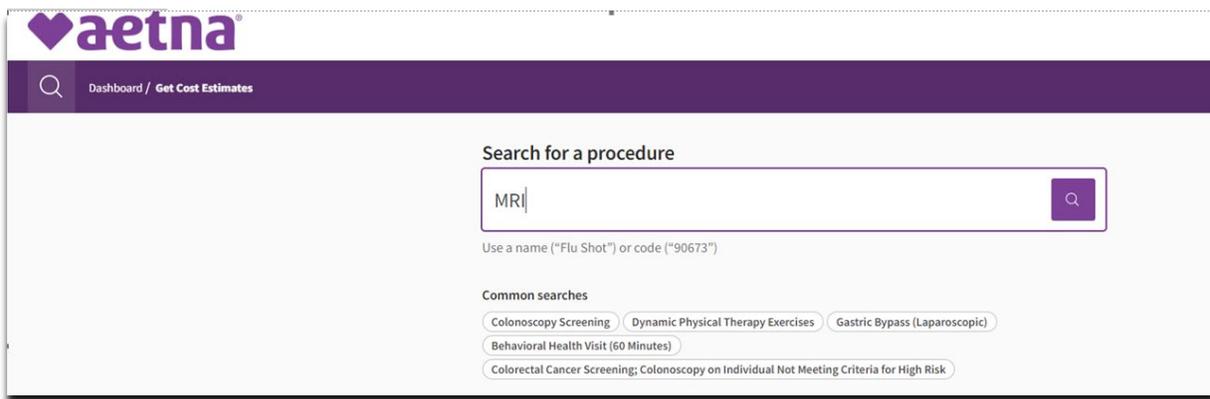

1. Login to Aetna's member website.  
(First time users will need to register.)

2. Select Get Cost Estimates option.

3. Search for the care you need.

4. You can filter up to three providers to make a side-by-side comparison.

**Comparing 3 providers**

Liberty Hospital	North Kansas City Hospital	Minimally Invasive Surgery Hospital Inc.

The example search above was for an MRI of the knee. The search identified multiple providers in the Greater Kansas City Metropolitan Area who can provide the service. The cost estimator tool illustrates an individual’s out-of-pocket cost varies from \$15 to \$112 for the same service. By investing a small amount of time upfront, you may be able to save yourself hundreds – even thousands of dollars – throughout the year.

If you need assistance using the Aetna cost estimator, contact your Bukaty Companies service team at 913-345-0440.
