## **Blue KC to request client data to complete RxDC reporting**

*Look for April 7 email notification*

Blue Cross and Blue Shield of Kansas City (Blue KC) will send an information request by email on April 7 to insured and self-funded group contacts. The Blue KC data request, which must be completed by April 24, is needed to fulfill annual Prescription Drug Data Collection (RxDC) reporting. The Consolidated Appropriations Act (CAA) requires insurance companies and employer-based plans to submit information regarding prescription and health care spending to the Centers for Medicare and Medicaid Services (CMS) by June 1 of each year.

The Blue KC email will contain a survey link requesting the following:

- total 2025 annual premium,
- total 2025 employer-paid premium, and
- total 2025 member-paid premium.

Employers who don't provide the necessary data by Blue KC's April 24 deadline will be required to file directly with CMS. Failure to complete the reporting requirement could result in a CMS penalty of \$100 per day per affected individual.

Contact your Bukaty benefits consultant for additional information or if the Blue KC email isn't received.
